

President Walton's Review of THE Audio Book version of NO ACCIDENTAL MISSIONARY

I recently listened to the Audible book, "No Accidental Missionary: How an Ethiopian man became a Christian in Saudi Arabia, and a missionary to America," and thoroughly enjoyed it. It was so enthralling I didn't want to pause while driving from Atlanta to Orlando. This is the amazing story of how God is still at work among people who are opened to His leading, and confirms the statement that God is not as interested in our ability as our availability.

Tesfai Tesema grew up in Ethiopia at a time when socialism was changing the way of life there. He was a bit of a slacker and disappointment to his parents. He did not finish school, couldn't hold a job, and wanted to waste his life away. In many ways he was simply a regular guy; a sinner in need of God's grace, and once He recognized God's great love for him in Jesus it revolutionized his life. The story is inspirational, gripping, moving, and filled with a wonderful testimony of the power of God's purpose and plan. From the streets of Ethiopia to Jakarta to Saudi Arabia to Sudan to America, God was preparing Tesfai for reaching his own people and beyond with the good news of Jesus! What a powerful reminder that God is constantly preparing us for things we could never imagine in ways we could never fully understand. A motivating book!
